Those full-time workforce members participating in an approved event will be permitted one (1) additional hour in conjunction with their ½ hour lunch period without charge to leave. Since this additional hour is in a “present for duty” status, military technicians (federal or state) and AGRs must attend in the appropriate military uniform or be in an approved leave status. Any period of time beyond the one additional hour is changeable as either annual or compensatory leave. Contractors assigned to the Delaware National Guard who attend one of these functions must be in a non-paid status or non-chargeable time to the government
